

NEW FROM GRACE

GRACE TRI-FLEX 30[®]

HIGH PERFORMANCE ROOFING UNDERLAYMENT

**The smart
alternative
to felt.**

Roof it right.[®]

GRACE
Construction Products

Our newest Weather Barrier is a more contractor-friendly alternative to felt.

Grin and bear it with felt. Or switch to Grace Tri-Flex 30® and just grin.

Grace Tri-Flex 30 does everything you've always wished felt could do – and more. It's easier to install, and performs better than felt. So, you only have to do the job once. It's perfect under shingles, tiles, slate, metal or cedar shakes.

It's lighter & covers more area.

Fewer trips up the ladder.
Each 10 square roll weighs only 30 lbs.

It's stronger.

Won't tear away from nails even in high winds.

It's more durable.

You can leave it exposed for up to six months.
Great when you have to dry in the roof.

It's slip resistant.

It is formulated for skid resistance.

It's NEW from Grace Construction Products and joins our line of high performance products – Grace Ice & Water Shield®, Grace Vycor® Plus and Grace Vycor Deck Protector® Self-Adhered Flashings.

Grace Tri-Flex 30 is so different that you have to see it and feel it to believe it.

GRACE TRI-FLEX 30®

HIGH PERFORMANCE ROOFING UNDERLAYMENT

Even the worst weather is no match for Grace Tri-Flex 30.

It can serve as a temporary water shedding roof covering for up to six months.

In test after test **Grace Tri-Flex 30®** outperforms felt.

Felt tears.

Grace Tri-Flex 30 won't.

Tired of the way felt rips and tears?

Grace Tri-Flex 30 is an innovative spunbonded polypropylene-based roofing underlayment coated with a layer of UV stabilized polypropylene, creating a tough weather-resistant membrane that's been proven under some of the harshest conditions in North America.

Looking for durability?

- **Tri-Flex 30 can be left exposed** for up to 6 months.
- **Won't rot or dry out** in high temperatures.
- **Won't crack or become brittle** in low temperatures.
- **Won't tear away from nails** even in high winds.

GRACE TRI-FLEX 30®

HIGH PERFORMANCE ROOFING UNDERLAYMENT

**And Grace Tri-Flex 30
means fewer trips
up the ladder.**

Grace Tri-Flex 30® saves labor and backs.

Every roofer who's ever hauled felt and other materials up that ladder knows what a back breaker it can be. Even if you use a roof loader, it can get pretty crowded up there – and you still have to wrestle each and every roll day in and day out.

Lighten your load.

Grace Tri-Flex 30 can't totally eliminate the load, but it sure makes it a lot lighter since every roll goes a whole lot further. Each roll weights 30 lbs. and does a full 10 squares.

Lays flat and stays flat – every time.

Grace Tri-Flex 30 is pliable and easy to work with. It stays where you apply it.

Slip resistant and so strong.

It won't tear while you're working with it, or after you leave for the night – even in high winds.

So, save labor and your back on your next roofing job – use Grace Tri-Flex 30.

**Grace Tri-Flex 30
is so flexible it
wraps corners like
nothing else can.**
